

## VALPOLICELLA RIPASSO

DENOMINAZIONE DI ORIGINE CONTROLLATA

### SUPERIORE

#### VINIFICATION

After pressing and destemming, fermentation is set off at controlled temperature of 20-24°C with remontages every 8 hours to extract polyphenols and anthocyanins. Placed in steel tanks until February, the wine is then left on the dried skins of the Amarone where it ferments again, enhancing the structure and aromas of the wine, according to traditional "Ripasso method". After decanting, the wine is transferred into barriques of various capacity and toasting, where it stays for some months before assembling and bottling. Ageing in bottle for 2-3 months.

#### TASTING NOTES

Ruby-red, this wine offers intense aromas of wild cherries, redcurrant, and hints of toasting. A rich and full-bodied wine, with sweet and round tannins on the palate.

#### FOOD PAIRING

Excellent with savory first course dishes or meat, such as roast lamb, barbecued meats and seasoned cheese. Serve at 18-20 °C.

### Famiglia Pasqua

The excellence of Pasqua Vigneti e Cantine production are signed by Famiglia Pasqua and tell the deep connection with the territory through the great Veronese and Veneto classics.
